Course Description:

The construction of knowledge about Québec society is required to participate in meaningful and nuanced democratic dialogue. However, knowledge alone is not sufficient to adequately prepare students to exercise their citizenship. Critical thinking and structured reflection that caringly and empathetically accounts for how societal issues affect the lives of individuals are also essential to enlightened citizenship.

The Culture and Citizenship in Québec program is therefore intended to meet three objectives

- Prepare to exercise citizenship in Québec
- Aim for recognition of oneself and of others
- Pursue the common good
